

School Bus Safety Program

The transportation director will ensure instruction for all students in school bus safety and emergency evacuation procedures. Drivers shall assist in the instruction. The following types of instruction will be given:

1. Emergency evacuation through available emergency exits;
2. Safe operation of windows;
3. Awareness and knowledge of posted bus safety rules and regulations;
4. Location and proper use of fire extinguishers.

Students who are regularly transported by the district will be provided such instruction within the first six weeks of each half of the school year. Students who are not regularly transported by the district will be given instruction at least once in the first half of each school year. The district will document and maintain records of the content and dates of instruction. Students going on a field trip will be given instruction before proceeding on the field the trip.

Buses will not exceed vehicle design capacity for seating at any time unless an unforeseen or unusual circumstance arises. Passengers will be provided a seat that fully supports them. The child safety system shall meet the minimum standards and specifications of law.

During adverse weather conditions, the superintendent may alter bus schedules or temporarily suspend bus services.

In the case of emergency or disaster, evacuation of students will be carried out according to the district's emergency plan.
