Academic Plans

Pursuant to AB 212 and NRS 388 the following policy is established.

The principal of each school in Lincoln County School District in which ninth grade pupils are enrolled must insure that a 4-year academic plan is developed for each of those pupils. The academic plan must set forth the specific educational goals that the pupil intends to achieve before graduation from high school.

The plan may include, without limitations, the designation of a career pathway and enrollment in dual credit courses, career and technical education courses, advanced placement courses and honors courses.

Parents (or legal guardians) and pupils must work in consultation with a school counselor to develop this plan. Parents and pupils must sign the plan. The plan must be reviewed by the parent and pupil in consultation with a school counselor at least once each school year, and revised if necessary.

If a pupil enrolls in a high school after ninth grade, an academic plan must be developed for that pupil with appropriate modifications for the grade level of the pupil.

The academic plan for a pupil must be used as a guide for the pupil and the parent (or legal guardian) to plan, monitor and manage the pupil's educational and occupational development and make determinations of the appropriate courses of study for the pupil. If a pupil does not satisfy all the goals set forth in the academic plan, the pupil is eligible to graduate and receive a high school diploma if he or she otherwise satisfies the requirements for a diploma.

Principals will periodically review plans to ensure that they are timely and appropriate.
