

Code: **IGBJ**
Adopted: February 14, 2002

Credit by Correspondence Courses

Credit earned by students through correspondence courses from accredited schools may apply toward graduation requirements if approved by the high school principal and/or designated members of the faculty, prior to the course being taken by the student. Correspondence courses must be taken from a district/state approved correspondence school. There are two correspondence school lists; one for students on an accelerated credit program and the other for students on a remedial credit program.
