

Code: **IGEA**
Adopted: May 8, 2008

Adult Basic Education

Adult Basic education is a program for adult students who need instruction to prepare them for the rigors of earning either a GED Certificate or an Adult High School Diploma. Students may require assistance in learning English or improving their Reading and Mathematics skills. Instruction and class times are tailored to fit individual needs and are available anytime in the calendar year.

Adult Basic Education students must take the CASAS pre-screening test or a similar test before enrolling. Students must pass the CASAS test before advancing from the Adult Basic Education Program and taking classes in GED preparation or for credit in the Adult High School.
