

Progress Update #2

Submit/Post to School Website

School Performance Plan Implementation: Using data from your fall interim assessment(s) please provide a short narrative (100 words or less) to capture your progress in the implementation of your School Performance Plan thus far.

Professional Development

<p>Focus will be on the planned PD by the LCSD engagement team and the Modern Teacher platform. We will also utilize the district PD on the current Empower LMS. We will continue to utilize the Summit platform for instruction and data tracking.</p>	<p>Consistently using both platforms to track data. The Summit Platform is used more consistently as we are in the third year of implementation. Empower is still new, but the teachers are using it to track standards.</p>	<p>Move to using Empower not only for data tracking but implementation of playlists to learn and assess standards.</p>

Family Engagement

<p>All staff have communicated with parents and gave them the information needed to access their children's progress on each platform. These meetings were students led, zoom or phone conference</p>	<p>Tracking the log-in percentages of parents.</p>	<p>Follow up with parents on what they still struggle with in accessing the platforms and then how to interpret the information.</p>

Curriculum, Instruction, Assessment

<p>The Summit platform can break down the percentages of feedback.</p>	<p>Our staff is still looking into how Empower can help track the feedback and if that platform cannot, how can we track.</p>	<p>See answer to the left.</p>

Elementary and Middle Schools report interim data here:

Grade	Lo %ile <21		LoAvg %ile 21-40		Avg %ile 41-60		HiAvg %ile 61-80		Hi %ile > 80	
K Math	0	0%	1	13%	3	38%	3	38%	1	13%
ELA	0	0%	1	13%	4	50%	1	13%	2	25%

ELA	4	31%	1	8%	3	23%	3	23%	2	15%

1. Based on this data, list the adjustments (if any) you will be making to your action plan?

1. CES teachers have decided not to make any adjustments to our action plan at this point in time.

2. What targets will you set for the Winter benchmark based on this initial data?

All students will make growth. All students in the low- average will make projected growth.
